Please note that the 2nd Webinar: 'What is multimodality and why does it matter?' is being held on Wednesday 14th January, 1pm - 2.30pm.

Dear colleagues,

Happy New Year from the emCETT PLAR team!

We look forward to seeing you all next week in the 2nd of our programme webinars: 'What is multimodality and why does it matter?', being led by John Sutter and Bob Read. You will be able to access this webinar at http://slcollege.adobeconnect.com/web2/.

As part of the webinar, you will have the chance to review four multimodal report formats that were used by research practitioners last year. In preparation for the webinar, we would like you to have a look at one of the four reports and begin to consider its strengths and challenges as a multimodal format.

If your surname begins with:

1. **A - G, please follow this link (Wordpress report)**
2. **H - M, please follow this link (Prezi report)**
3. **N - S, please follow this link (Thinglink report)**
4. **T - Z, please follow this link (Infographic report)**

So, if your name is Joe Blogs, you will be following link 1 above.

In the webinar, you will have a chance to write very brief 'sticky note' comments on an online sticky board.

On the 14th, the webinar room will be open from 12.00pm in case you did not attend webinar 1 and would like to test your headphones/ connection.

We look forward to seeing you all next week. Please note that this webinar will be recorded in case you are not able to attend live. As such, if you would not like your name to be shown in the recorded session, you can choose to sign in using a nick name.

Best wishes,

Claire
(Research Lead, emCETT PLAR Core Team)
